### **Sen. Bishop announces release of Insurance Workgroup Report**

**LANSING**—State Sen. Mike Bishop announced today that the Insurance Workgroup he assembled last year will be issuing a comprehensive report on the status of no-fault automobile insurance in Michigan today.

“The impetus behind the workgroup was to gain a deeper knowledge of the factors influencing Michigan’s auto no-fault insurance market and public opinion regarding Michigan’s auto no-fault system,” said Bishop, R-Rochester. “This report provides a general assessment of Michigan’s current auto no-fault system and provides policy recommendations aimed at making the system more efficient and affordable for all Michigan residents. Above all, it is imperative that we extract the political rhetoric from this very serious debate and work to together on real solutions.”

Copies of the report will be made available to interested parties starting Wednesday, September 20, 2006 in office 605 of the Farnum Building in downtown Lansing.
